Sportiva2

Following the success of the innovative Sportiva, CompeGPS announces the launch of an **improved second edition**.

The current version includes important improvements which confirm it as one of the **most intuitive**, **light** (124 g) and **powerful GPS** devices on the market. Sportiva2 allows you to manage your activities as you have always dreamed: with **quick and precise positioning**, higher **autonomy** and an **interface** with agile and fluid map movements.

Whichever activity you engage in, its robust design will guide you while its **multiple functions** (includes 3D compass, barometer and a powerful GPS receptor) wherever you want to go.
