

## Transpyr Adventure 2013

The new edition of Transpyr Adventure 2013 - don't confound it with the Transpyr Challenge which is carried out over seven individual stages from April to September - will start on July 6th in Roses (Girona) and will end on July 13th in San Sebastián. It's an adventure comprising eight stages crossing the Pyrenees mountain range - from east to west - covering a distance of 820km and 20.300m of accumulated ascent.

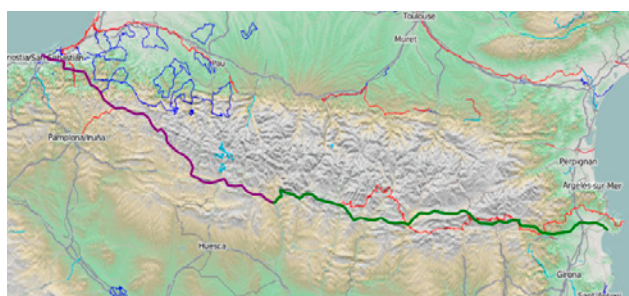

The Transpyr - also known as the “*coast to coast mountain bike epic*” as it connects the Mediterranean Sea and Atlantic Ocean, passing through Catalonia, Aragon, Navarra and Euskadi - is thought for experienced bikers. In fact, the route has been designed to run through the minimum number of paved roads possible, incorporating several climbs and trails of low cyclability, covering 8 stages:

➔ Roses (Girona), ➔ Camprodón (Girona), ➔ Seu d'Urgell (Lleida), ➔ Pont de Suert (Lleida), ➔ Aínsa (Huesca), ➔ Jaca (Huesca), ➔ Isaba (Navarra), ➔ Elizondo (Navarra) ➔ San Sebastián (Donostia).

For participants who do not want to cover the entire trail, the organization has created two excellent alternatives:

- On the one hand, the **Transpyr East**, covering, in four stages, the 460km between Roses and Aínsa (Huesca).
- And, on the other hand, the **Transpyr West**, covering, in four stages, the 359km separating the cities of San Sebastián and Aínsa.

Each stage is organized by the cycling clubs of the respective cities the Adventure will pass through.

The Transpyr is, without doubt, the result of a well thought project, which, in just four years, has gained a consolidated position in the world of mountain biking.

## COMPEGPS AT TRANSPYR ADVENTURE 2013

For the 2013 edition of Transpyr Adventure, CompeGPS is sponsoring the **Buff International MTB Team**, which counts on the presence of the professional biker **Pau Zamora**, as well as several amateurs who will use our TwoNav Ultra during the crossing. Additionally, **Sergi Fernández** - as journalist for the magazine Solobici - will write an article, covering everything that happens during the Transpyr Adventure 2013, with the help of our TwoNav Sportiva2. In this sense, CompeGPS supports three different profiles of athletes within the calendar of this year 2013: evaluating our products on a professional level, from the point of view of an experienced adventurer, as is the case of Sergi Fernández, and, of course, also based on the opinion of the avid amateur.
