

TwoNav Sportiva2: *With TwoNav Sportiva2, go even further!*

Following the success reaped by the innovative TwoNav Sportiva, CompeGPS announces the launch of an improved second edition. TwoNav Sportiva2 provides you the best tools in a single GPS device to fully enjoy your favorite outdoor activities (cycling, hiking, geocaching...). TwoNav Sportiva2 is one of the most intuitive, light and powerful GPS device on the market:

- Quick and precise GPS positioning
- Up to 3 hours more of autonomy
- An interface with much more agile and fluid map movements

Great news for a new generation

Since TwoNav Sportiva has been one of the most successful GPS produced by CompeGPS, we have been working for some months to present to you an improved second version: TwoNav Sportiva2

- ↑ The brand new TwoNav Sportiva2 has an **improved GPS chip** which provides a much faster and much precise positioning.
- ↑ The device's battery has been designed to obtain 3 additional hours of autonomy, so TwoNav Sportiva2 has a **battery life up to 16 hours**.
- ↑ The **internal memory** of the device has been improved to get a larger capacity (from 2GB to 4GB) allowing you to use and save more content in the device.
- ↑ TwoNav Sportiva2 provides you an improved fluidity while using the interface of the application. CompeGPS has increased the **RAM memory** of TwoNav Sportiva2 from 64MB to 128MB.

CompeGPS does not forget the importance of visual identity. TwoNav Sportiva2 can be easily recognized due to the elegant GPS design in white and black colors.

Main Features

Light, robust and multifunctional, the brand new TwoNav Sportiva2 has been designed to guide you everywhere in any kind of terrain (walking, cycling, hiking, geocaching...).

TwoNav Sportiva2 offers you a wide range of integrated tools such as an electronic 3D compass as well as a barometer, so during your outdoor activities you will not have to worry about rain and dust.

Its transfective 3-inch touchscreen provides an excellent resolution (240 x 400 pixels), so that you can view your maps in high definition even under sunlight. The touchscreen technology offers you an easy interaction with the GPS device.

Easy navigation with TwoNav

The extremely intuitive software included in Sportiva2 has been developed to meet the needs for all types of users from beginners to professional athletes. With TwoNav you will be able to quickly manage the wide range of tools at your disposal. Get the ability to prepare your track directly on the screen as well as customise every single menu and screen panel (choose among 80 different data fields).

Sportiva2 provides you a unique experience!

Large map portfolio

Having in mind that while using a GPS device, every user has its own habits and preferences, TwoNav offers you the possibility to load a vast majority of map formats: urban maps, topographic maps, satellite images as well as self-scanned paper maps. In addition, TwoNav Sportiva2 brings you a roads map of Europe for free (Open Street Maps), no way to get lost!

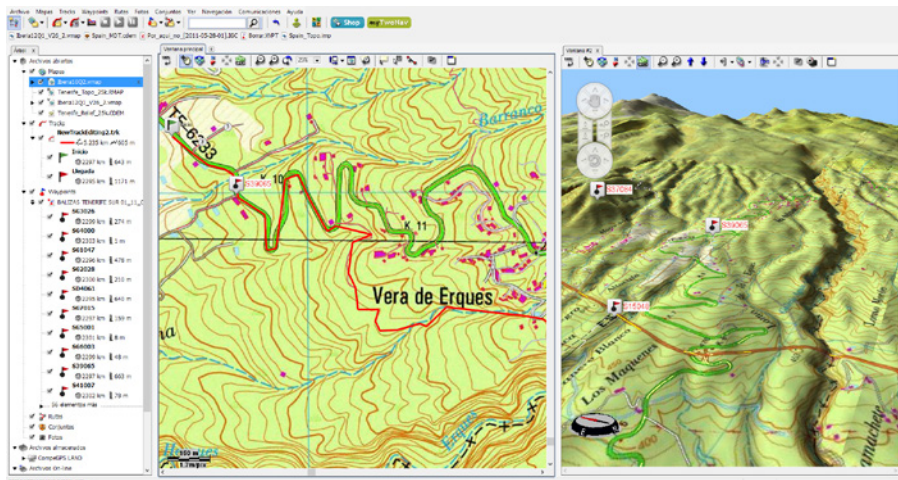

Ready for a tridimensional experience

With TwoNav Sportiva2 you will participate in a unique experience in real 3D view.

Display the map of your country in three different dimensions (2D, 3D flat and 3D+). Get additional maps from www.compegps.com.

PC connection

Land software (either for Windows or Mac) is the perfect complement for TwoNav Sportiva2. With Land you will be able to plan, analyse and make each of your trips unforgettable: prepare and analyse your routes comfortably at home, create your own calendar, analyse excellent graphics of your trips, manage all the content of your TwoNav Sportiva2.

Land offers you the possibility to convert all your data (tracks, routes, waypoints, maps...) into the most suitable format, so that you can share your own elements. Create unlimited tracks, routes and waypoints (TwoNav Sportiva2 is compatible with the most common formats). Moreover, with Land you will be able to download tracks from the most important webservers such as Everytrail.com, GPSies.com, Tracegps.com....

TwoNav Sportiva2 will take you anywhere you want to go!
