

TWONAV **ANIMA+**

Discover your potential!

After the launch of the modern and intuitive TwoNav Anima, TwoNav launches the new TwoNav Anima+ onto the market so that the most demanding athletes can enjoy any outdoor activity using ANT+™ technology. With it you will have data gathered in real time through external sensors (speed, cadence and pulse) to monitor and intensify your training sessions.

COMPATIBLE WITH ANT+™ TECHNOLOGY

Intensify your training and improve your performance

TwoNav Anima+ allows you to connect any sensor compatible with ANT+™ technology, and it will provide with data on **speed, cadence and pulse, all in real time**. When you finish your training you will be able to analyze the results, comparing them with those from previous sessions. In addition, TwoNav Anima+ features multiple alerts that you will be able to activate so as not to exceed the limits that you set for yourself.

MORE BATTERY LIFE THAN EVER

Time no longer is a problem

TwoNav Anima+ features a replaceable battery lasting up to 12 hours, allowing you to set out on long training sessions and rides with no need to recharge the GPS. And, in the event of an emergency, you'll be able to activate the 'survival' mode, which will let you use your GPS for up to **22 hours** thanks to its 5-minute connection interval.

MAXIMUM FLUIDITY AND SPEED

Navigate fast!

To provide for greater fluidity the TwoNav Anima+ processor features a series of improvements that will allow you to **navigate quickly and easily** through the main menu and on any map. It also boasts 4 GB of memory for you to record a large volume of tracks, waypoints, routes, roadbooks and much more.

OPTIMAL SCREEN VISIBILITY

It can take mud, sweat, rain and blows!

TwoNav Anima+ can withstand blows, and works perfectly under the rain and exposure to mud. In addition, TwoNav Anima+ allows you to adjust the screen to meet your needs: better visibility and night vision. In addition to all this, its transfective 3" screen, readable in the sunlight, will allow you to enjoy **optimal and reliable** navigation.

THE PERFECT MOUNT FOR YOUR BICYCLE

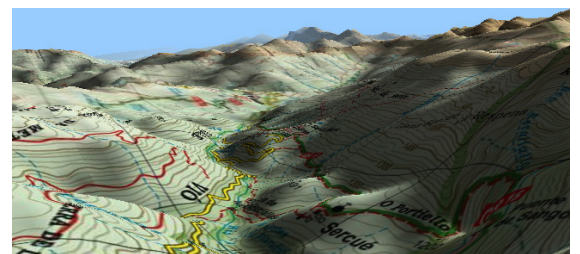

Compact, light and safe

With a modern and simple design, the **bicycle mount** that comes with the TwoNav Anima+ is the ideal accessory to set out on your rides with total confidence, even over difficult and irregular terrain.

AN EXTENSIVE SET OF MAPS

The best 3D views, on the best maps

Have fun with the **best topographic maps**, in high resolution and 3D, and navigate during your rides enjoying the ultimate in realism and security in any setting. In addition you will be able to download maps from the world's most prestigious publishers.

PRECISION

Your exact position

TwoNav Anima+ possesses the **market's most reliable** chipset, furnishing the device with a faster and more reliable GPS signal, allowing you to identify your exact position at all times.

LIGHT WARNINGS

Customized alerts

TwoNav Anima+ is equipped with three practical LEDs at the top of the screen, which indicate the status of your GPS (battery, standby mode, blocked, etc). You will also be able to set data field **alerts tailored to your preferences**; for example, in the event you exceed or fail to reach the minimum figure programmed, the red LED will light up to inform you.

COMPLETE VOICE DIRECTIONS

Greater safety behind the wheel!

Active the voice directions function, available for TomTom maps, and enjoy **safer driving** during your trips. It will also indicate all the points of interest and the locations of possible radar devices along your route.

Technical specifications

GPS design:

- Dimension: 63 x 112 x 23 mm
- Weight: 144 g (battery included)
- Screen: Transflective touchscreen (3")
- Resolution: 240 x 400 pixels
- Certification: IPX7
- 4 physical buttons: 2 at front + 2 at sides

Technical specifications:

- Chip GPS: UBLOX Max-7Q
- Battery: Li-ion 1.450 mAh (can be replaced or substituted by AA batteries adaptor)
- CPU: ARM 664 Mhz
- Internal flash memory: 4 GB
- MicroSD card reader: Up to 32 GB
- ANT+™ technology
- 3D Electronic compass
- Barometric altimeter
- Speaker: 1 W (voice guidance)
- PC connection: MicroUSB
- Operating temperature: -10°C ~ 60°C
- Storing temperature: -20°C ~ 70°C

In your product box...

- Topographic map: according to selected pack (1-5 Tiles, 1 Region, 1 Zone or 1 Country)
- Vectorial map (OpenStreetMaps): World
- Battery
- Device cradle
- USB cable for connections (USB-to-MicroUSB)
- Bike mount
- Wall charger
- -50% discount to purchase Land/Air software (full version)

GPS ACCESSORIES

- Spare battery
- Spare cradle
- AA batteries
- Bike mount
- Wall charger
- USB cable for connections (USB-to-MicroUSB)
